# ENTER A NEW REALM

THE LIMITED SERIES REALM FL605

## THE REBIRTH OF A LUXURY ICON

The LIMITED SERIES REALM FL605 marks a bold new chapter for Foretravel Motorcoach and Freightliner Custom Chassis Corp., bringing together two industry leaders to reimagine a luxury Class A coach. Revealed at the 2026 Florida RV SuperShow, the LIMITED SERIES REALM FL605 is built from the ground up to deliver exceptional ride quality, handling stability, and long-term durability while preserving the craftsmanship and livability Foretravel is known for.

### ENGINEERING THAT SETS NEW STANDARD

Developed through a multi-year collaboration, the LIMITED SERIES REALM FL605 introduces a hybrid chassis architecture that blends FCCC's XCM modular chassis with Foretravel's exclusive ForeTruss FL chassis bridge. Power comes from the Cummins X15 engine, producing 605 horsepower at 1800 RPM, paired with the Allison 4000 MH automatic transmission. Together, they are engineered for performance today and ownership confidence for years to come.

### POWERED BY FCCC 5-STAR FEATURES

The LIMITED SERIES REALM FL605 comes standard with FCCC's proven 5-Star driving features, including V-Ride® rear suspension, UltraSteer® fully integrated tag axle steering, the OptiView™ all-digital gauge display, and FCCC's 24/7 Direct Infinite Support—engineered to deliver an exceptional driving experience.

## ADVANCED CHASSIS TECHNOLOGIES

### 20,000 LB. TOWING CAPACITY

Freightliner's SL chassis comes standard with the Cummins 605HP including 1,950 lb.-ft. of torque—capable of generating the horsepower and torque needed to tow up to 20,000 lbs.

### DRIVETECH™ ADVANCED DISPLAY AND CONTROL SYSTEM

DriveTech's ergonomic steering wheel and column-mounted controls eliminate the need to reach for every command, enabling you to keep your head up and your hands on the wheel. This is the only driving system in the industry that places transmission controls at your fingertips.

## ROADWATCH

### ROADWATCH® SAFETY SUITE

FCCC's high-tech ACTIVE safety system features: Roll Stability, Traction Control, Collision Mitigation and Adaptive Cruise Control. RoadWatch is fully integrated with OptiView, FCCC's exclusive digital gauge display.

## BRAKE SYNC

### BRAKESYNC

BrakeSync is a fully integrated air supply for tow vehicles, developed exclusively for the RV industry; factory-installed and factory-warranted.

### INDEPENDENT FRONT SUSPENSION WITH V-RIDE SUSPENSION

The SL chassis features an independent front suspension for sharper turning and better handling. The V-Ride rear suspension is rated at 20,000 lbs., increasing luxury amenity and cargo capacity while greatly reducing body roll.

### 5 YEAR/100,000 MILE WARRANTY

The SL FCCC chassis comes with an industry-leading 5-year/100,000 mile warranty—a higher standard of coverage and confidence.

### FORETRUSS FL CHASSIS BRIDGE

Exclusive to the LIMITED SERIES REALM FL605, the ForeTruss FL chassis bridge integrates with FCCC's modular platform to increase structural rigidity, optimize weight distribution, and expands usable storage—delivering Foretravel-grade ride quality with FCCC-backed performance.

### MY 24/7 DIRECT

FCCC is the only RV chassis manufacturer to offer 24/7/365 factory-direct support. The My 24/7 Direct app provides instant information and assistance, all in one place.

- Manuals and maintenance details
